

Crafted from Eco - Friendly Steel

*Welcome to BambooBrook!*

## A LITTLE STORY ABOUT US

### PUTTING NATURE'S GIFT TO HUMANITY TO GOOD USE

Each one of us has a mission and ours is to make bamboo accessible to you. At BambooBrook, we bring to you a host of bamboo products and services to not only help you decorate your living spaces but also to contribute to planet Earth. We derive our business name from the two elements of nature: Bamboo and Brook, each of which has a significance in what we do.

Just like the free flow of water in a brook, we make the best of bamboo's flexibility to customize it into different products.

*More than just a grass*

## BAMBOO IS NO ORDINARY PLANT

Nature's smartness comes to the forefront with bamboo—the natural substitute for endangered hardwoods. Nature created this grass to solve not only her troubles but ours too. There's nothing that comes close to being as strong, flexible, durable, environment friendly, and elegant, all at the same time, as bamboo.

## *Of Weaves and Traditions*

### **WE BRING BAMBOO TO YOU**

It bends with the wind but doesn't break that's bamboo for you. There's no plant in the world that can rival or even match the utility that bamboo offers. At BambooBrook, we are proud to bring to you a wide range of traditional, modern, and innovative bamboo products that will transform your home or office interiors and exteriors.

A hollow bamboo stem comes with endless possibilities, and we turn those possibilities into our superior products and services.

## *Show the Earth Some Love with*
